### Featured lesson: White light

Our featured lesson for April is Natural and artificial materials.

Discover how a plant on Earth inspired high-tech space suits for astronauts. **Film: The lotus effect.**

Find out the difference between natural and synthetic materials. **Film: Natural and synthetic.**

Create a shelter using natural materials and synthetic materials. **Practical: Make a Shelter.**

### Topical science: A surprising new use for old mattresses

Zastari Refugee Camp, in Jordan, is home to people who have fled their countries due to war. It's difficult for the people there to grow food, because the soil is in poor condition and there's not much water.

However, there are lots of old foam mattresses, left behind by people working in the camp. Now, residents have teamed up with scientists to grow plants in the foam!
