

## Fiver from Home

The Fiver from Home project is a fun way for pupils (5-11) to imagine what business they could create with just a £5 note.

During the project pupils will use the workbook to complete activities such as creating a business name and logo, doing remote market research, planning their products/service and finishing with writing and presenting a sales pitch to someone in their house.

## How does it work?

The project is designed to be completed with minimal supervision and in a flexible way - easily fitting in with any home-schooling schedule. We have provided everything you need for your pupils to take part, including:

- Fiver from Home Workbook
- Word guide
- Top tips for Logos
- Remote Market Research Survey Template
- Top tips for parents
- Fiver from Home Checklist

## Why get involved?

Fiver from Home helps pupils to develop key skills, including:

- Creativity
- Communication – written and verbal
- Planning and organisation
- Problem solving
- Commercial awareness

Once they complete the workbook and activities, they even get a participation certificate to celebrate their achievement!

Simply register to get access to the Fiver from Home materials and get started!
