

11 September 2014

Dear Parents

I hope you have had a lovely summer holiday and have made the most of the weather we had! I am very much looking forward to getting to know the class and having lots of fun and hard work over the year.

Our topic this half term is The Stone Age. Within this topic we will be looking at rocks and soils in science, settlements in geography and in history the Stone Age. We are also having a whole school trip to Dalby Forest on 29 September. There are lots of fun and exciting activities planned throughout the day. The children will be doing lots of follow up work back at school. Trip letter to follow! For any more information about the curriculum, please see the overview plan.

During this half term we will be doing outdoor Rugby PE sessions. Please make sure your child always has a PE kit in school. I will send PE kits home after each half term for a wash. Please make sure all of your child's belongings have their names clearly labelled with their full name. This makes any lost items easily returnable. Please can you make sure your child has a pair of indoor shoes which are also clearly labelled.

The children have the opportunity to change their reading book daily, but it is their responsibility to pop it into the 'change box' when they come into the classroom in a morning.

I will set homework most Fridays and would like it to be returned by the following Wednesday. We often use the work set as part of our learning in the classroom, so please try your best to make sure your child completes it. Homework tasks will be short, but any additional learning which you choose to do with your child at home is great, but completely optional.

If you have any questions or queries, please come and chat to me at the door at 3.30pm.

Looking forward to meeting you soon.

Yours sincerely

Laura Leitch
