

Hi everyone,

It's Miss Burgin,

I've just found out that I'm going to be your new Year 3 teacher and I'm thrilled! I can't wait for when we all return in September so that I can get to know all of you and continue to help you develop all of your skills in maths, English and all of the other subjects that we are going to cover over the next year. We have so many fabulous topics that we are going to learn about, and Miss Green and I have already been planning exciting lessons that we are going to start when we get back in September.

For those of you who don't know me very well, I have a daughter at Welton, Elizabeth and she is moving up into year 4 in September. We have a crazy rescue Bull Terrier at home called Theo and Elizabeth has stick insects as pets as well (you might have seen them when we have brought them into school in the past).

I love maths and science even though some of the experiments have the potential to go wrong we always have a great time investigating and learning from our observations. I also love art and DT so expect to get messy and create some fantastic projects over the next year.

I know that some of you might be feeling a bit anxious about coming into a new class in September with a new teacher. Especially when you have been off school for such a long time but don't worry, lots of children will feel the same and I'll be there to support you all of the time. I always view my class as 'our family' and we will all work together by showing compassion and kindness to keep everyone safe and happy.

School will feel a little bit different when you come back because we will be staying in our class 'bubble' which means that we won't be mixing with other year groups. We will stay in the classroom to eat our lunch every day, as well as just playing games with our class at play time.

Just remember it's going to be an amazing adventure moving up into key stage 2! I hope you all have an amazing summer I can't wait to hear what you've been up to when we get back.

Take Care.

Miss Burgin
