

Welton Primary School

COVID-19 - COVID Prevention (Schools) Safe System of Work 5jul20

This risk assessment has been prepared to support schools in welcoming back all children in to school from Autumn 2020.

The government have considered that the risk to children of becoming seriously ill with COVID-19 is very low and there are negative health impacts of not being in school.

Nonetheless the risk of COVID-19 remains, and vigilant measures must be in place to reduce the risk to as low as possible, and we encourage the use of sensible and proportionate measures using existing resources wherever possible to balance and minimise any risks from COVID-19.

The system of controls provides a set of principles and if all staff follow this advice, they will effectively minimise risks. All elements of the system of controls are essential.

The overriding principles are as follows:

1. Minimise contact with individuals who are unwell by ensuring that those who have symptoms, or live with someone who does, do not attend school. This applies to children, staff and visitors.
2. Hand hygiene - washing hands thoroughly and more frequently than usual
3. Respiratory hygiene - Catch It, Bin It, Kill It approach to coughs and sneezes
4. Enhanced Cleaning Arrangements, particularly of frequently touched surfaces or shared spaces
5. Minimising contact between individuals and maintain social distancing wherever possible.

Prevention

If a member of staff or child at school is concerned they have COVID-19 they must follow the latest NHS guidance and if advised to self-isolate at home they must follow the guidance from Public Health England. **They must not attend the school.**

This must be reiterated through communication with staff and parents

If a child or staff member presents symptoms during the school day, isolate them to separate room or ensure they are situated 2 metres from others if isolation is not possible. Ensure that PPE is worn when in close proximity and that guidance is followed in relation to Cleaning Activities (Following Suspected or Confirmed Case.)

Any members of staff who have helped someone with symptoms and any pupils who have been in close contact with them do not need to go home to self-isolate unless they develop symptoms themselves (in which case, they should arrange a test) or if the symptomatic person subsequently tests positive (see below) or they have been requested to do so by NHS Test & Trace.

School staff and children who attend school are eligible for testing. If a positive test is received, they must self-isolate for 10 days and their household for 14 days, from the first symptoms.

If they have tested positive whilst not experiencing symptoms but develop symptoms during the isolation period, they should restart the 10-day isolation period from the day they develop symptoms.

If they are confirmed through testing to not have COVID-19 they can return to school.

Individuals must continue to self-isolate if they have symptoms even if a negative test result is received until the symptoms cease.

Schools are permitted to refuse access to any individual who is displaying symptoms but who cannot confirm a negative test.

Visitors

Welton Primary School will ensure visits by professionals, parents, volunteers, supply staff or contractors are to be kept to a minimum and by appointment only.

Such visits may take place, but social distancing must be adhered to following the 2 metres guidance where possible.

Supply Staff may move across class/year groups, but this should be minimised and social distancing must be adhered to. If Supply Staff are working in a class where social distancing is not achievable, their role must be restricted.

All visitors who access the site must be requested to read and sign the Visiting Agreement that will be given to them on entry to the school.

Contact Details will be obtained for Track and Trace purposes and retained within the school for 2 weeks. Any individual who does not sign the Visiting Agreement will not be permitted access to the school.

Preparing for the Task:

- Arrange appointments for contractors, parents and other visitors
- Visitors should bring minimal personal belongings in to school
- Identify an appropriate room for visits to take place. Outdoor space should be utilised wherever possible. Ensure furniture is arranged to allow for social distancing and that the room is well ventilated.
- Provide a 'Disinfection and Hygiene Station' in each room available to visitors, including tissues, hand sanitiser, disinfectant spray, disposable paper towels/cleaning material and a bin.
- Plan visits so that the number of 'bubbles' they visit is minimised
- Arrange staggered start and finish times for year groups and the onsite pre-school to avoid large gatherings of parents on the school site. Timings for each year group will be allocated by the school and must be strictly adhered to.
- Request that children are dropped off and collected by one parent only, and do not enter the building when doing so
- Put up signage to remind parents where to drop off and pick up – communicate this in advance
- Communicate to parents; scooters and bicycles etc.. will not be permitted on the school site

Completing and Finishing Task

- Wash hands thoroughly, frequently and between moving groups or activities
- Ensure that social distancing is implemented during any pre-arranged visits
- Visitors must maintain 2 metres distance wherever possible
- Continue to promote the use of electronic payment wherever possible
- Monitor compliance by visitors
- Consider changing clothes prior to working in another 'bubble.'

Potential Hazards and Injuries:

- Spread of infection due to poor practices.

Do:

✓ Communicate with parents the above requirements and use signage to reinforce messages

Communicate with parents and visitors not to enter the school environment if they display any signs of Covid - 19

✓ Arrange appointments with visitors and only allow access where necessary.

✓ Ensure social distancing is in place for all visits

✓ Obtain names and contact details of all visitors, and request that they sign the visitors agreement

Don't:

✗ Allow access the school building if someone has symptoms of COVID-19

✗ Allow groups of parents to congregate in the school reception area or within the school grounds

✗ Allow visitors on site if social distancing measures cannot be effectively implemented

Infection Control

Preparing for the Task:

- Access to handwashing facilities and paper towels OR hand sanitiser are available at all times, throughout the school, including in toilets and each classroom.
- Within each classroom disinfection wipes will be available at all times to allow teaching staff and teaching assistants to regularly sanitise as required. These will be stored safely away from children.
- Tissues should be readily available at all times in classrooms. Children should be regularly reminded to use a tissue or their sleeve to capture droplets. Hands must be washed after coughing or sneezing – staff are responsible for monitoring this with their Bubble.
- Ensure bins are available in each classroom and other key locations to encourage ‘catch it, bin it, kill it’
- All classrooms to be well ventilated by opening windows and doors to be propped open.
- School to provide children with a pencil case and writing equipment
- Prevent the sharing of equipment where possible. Shared materials and surfaces should be cleaned and disinfected more frequently.
- Limit the amount of resources that are taken between school and home – no reading books, book bags, rucksacks to be transferred from home to school and vice versa.
- Ensure that any resources (such as toys or books) are allocated to a specific class/year bubble and are regularly cleaned if possible.
- Ensure that any resources that a shared across each Year Groups are cleaned meticulously and frequently, and **ALWAYS** between each different Year Group. If items cannot be cleaned provision must be made to ensure that the resources are ‘quarantined’ for a period of 48 hours (or 72 hours if plastic) prior to being used another Year Group.
- Prepare a cleaning regime that includes shared spaces (such as toilets and kitchens), regularly touched surfaces (such as door handles, banister rails, light switches) and equipment (sports equipment, IT equipment)
- Allocate specific toilets to each class/year group
- Consider the use of ‘COVID Champions’ to facilitate the increased cleaning requirements throughout the day, and to be the main point of contact for COVID ‘Disinfection and Hygiene products’ supply replenishment
- Inform parents that children must only bring a water bottle, piece of fruit, and a packed lunch in to school each day.
- Display posters prominently throughout the site to reinforce hand hygiene and ‘catch it, bin it, kill it’
- Lunches will be eaten in the classroom, (school sandwich meal or home packed lunch). Staffing to be arranged to ensure staff breaks are taken without increasing direct contact or unnecessary adult to adult contact.
- PPE equipment to available within every classroom.

Completing and Finishing Task

- Handwashing **must** be completed thoroughly and more frequently than usual. Where possible, use water and hand soap. If this is not practical, hand sanitiser should be used instead.
- Staff and children should wash/sanitise their hands upon arrival at school, before and after eating and after coughing or sneezing, and frequently throughout the day. Children to be shown a handwashing video or story every day – vary for impact. Encourage children to learn and practise these habits through singing repetition and games.
- Face coverings are not required in primary schools. Face coverings should be removed safely by those who use them at arrival at school (not touch their face when removing, dispose of temporary face coverings, seal re-usable face covering in a plastic bag, then wash hands.)
- Tissues should be used to cover mouths and noses when coughing or sneezing. If no tissue is available, sleeves should be used to capture droplets. Tissues must be immediately disposed of and in any case, hands must be washed or hand sanitiser used after coughing or sneezing. Ensure that staff and children are regularly reminded of this.
- Clean and disinfect regularly touched objects and surfaces throughout the day using regular cleaning products. Use disposable cloths or paper roll if possible. Wash hands with warm water and soap as soon as the activity is completed.
- PPE equipment in classrooms to be replaced once it has been used

Potential Hazards and Injuries:

- Contact with bodily fluids and droplets.
- Spread of infection due to poor practices.

Do:

- ✓ Wash hands/sanitise hands frequently throughout the day
- ✓ Devise a cleaning regime which includes frequently touched surfaces and shared spaces or equipment
- Use tissues to capture coughs and sneezes – Catch it, Bin it, Kill it!
- ✓ Ensure bins are emptied regularly, double bagged

Don't:

- ✗ Use equipment or toys that cannot be easily cleaned (such as trim trail, soft toys, textiles, playdough or equipment with intricate parts) unless these are allocated to a specific Bubble only
- ✗ Allow children to bring anything more than the minimum amount of equipment from home (lunch box, coat, water bottle and whole piece of fruit)

Minimising Contact and Social Distancing

Preparing for the Task:

- Devise Year Groups (Bubbles) and make a record of who this comprises.
- Each distinct Year Group must maintain distance with all other Class/Year Groups through staggered arrival, staggered break and lunch times, and staggered end times – see timetables / maps devised.
- Arrange classrooms to facilitate distance between desks, front facing and side by side in KSI and KS2
- Arrange classroom to facilitate social distancing and minimise contact between children and adults in EYFS
- A 'teacher zone' must be implemented by the class teacher in each classroom to ensure they are 2 metres away from children wherever possible.
- It will not be possible when working with many pupils who have complex needs or who need close contact care to maintain social distancing. These pupils' educational and care support should be provided as normal.
- Any unnecessary furniture has been removed from the classrooms to increase the availability of space to facilitate distancing.
- Staggered breaktimes, lunchtimes implemented to avoid year groups mixing with others
- Implement a one-way or 'keep left' arrangement in corridors
- No one to enter the school general admin office before or during school hours. Requests for colour photocopying must be emailed to the office 2 days in advance. Photocopying will be left in the staff pigeon holes.

Completing and Finishing Task

- Make use of outdoors for activities as much as possible
- Teaching staff must maintain 2 metres distance from children wherever possible.
- Staff must maintain 2 metres distance from colleagues wherever possible. The staff room use must be restricted to preparing meals and drinks only, not a social gathering location. The staff room will be restricted to a maximum number of users. Clear signage will explicitly display the maximum number of users permitted at any one time.
- Electronic communication will be used to communicate with staff and parents
- Large gatherings such as assemblies or collective worship must not take place with a mix of Class Groups.
- Movement around the school is restricted for both adults and children. Classrooms will be accessed via the external entrances.

Potential Hazards and Injuries:

- Contact with bodily fluids and droplets.
- Spread of infection due to poor practices.

Do:

- ✓ Devise class/year group 'bubbles' comprising identified staff and children who work and move together around school
 - ✓ Ensure that class/year groups do not mix with one another for prolonged periods of time
 - ✓ Remove any unnecessary furniture to facilitate improved distancing, including implementation of a 'Teacher Zone' to ensure 2 metres distance wherever possible
 - ✓ Implement a one way or 'keep left' arrangement in corridors
- Limit the number of children at the toilet to a maximum of 1 child per class at any one time

Don't:

- ✗ Have face-to-face contact and minimise time spent within 1 metre of anyone else
 - ✗ Complete activities which involve Class Groups mixing, or close contact (such as assemblies, contact sports or school events.)
 - ✗ Compromise supervision levels, but do use the fewest number of staff as possible to a class group to ensure safety
 - ✗ Forget to use electronic communication rather than face-to-face where possible
- Allow mixing of staff or children with other year groups to avoid direct transmission from group to group
- Allow children to leave the classroom onto the corridor with the one exception of using the toilet.

Premises

Preparing for the Task:

- Ventilate the building – open doors and windows where possible
- Ensure walkways are unobstructed – remove furniture or anything that creates ‘pinch points’
- Display posters throughout the school to reinforce key messages – Hand Hygiene, Catch It, Bin It, Kill It and Maintain Distance
- Implement the devised cleaning schedule
- Consider the use of ‘COVID Champions’ to facilitate the increased cleaning requirements throughout the day.
- Establish classrooms to facilitate front facing desks, with as much distance as possible between children, and a Teacher Zone to encourage 2 metres distance when facing the children
- Remove as much unnecessary furniture as possible to reduce the amount of surface to be cleaned, and facilitate greater distance
- Ensure all building checks have been completed prior to opening, including legionella.

Completing and Finishing Task

- Maintain good ventilation throughout the school at all times
- Use external doors for access and egress to classrooms
- Adopt a one way, or ‘Keep Left’ system, on corridors
- Monitor the site to ensure walkways remain clear and unobstructed
- Ensure that regular building checks are completed in line with risk assessment (such as legionella, fire safety)
- Ensure that enhanced cleaning arrangements are completed throughout the day, paying particular attention to shared spaces (such as toilets, staffrooms, photocopying rooms) and frequently touched surfaces (such as door handles/plates, light switches etc.)

Potential Hazards and Injuries:

- Contact with bodily fluids and droplets.
- Spread of infection due to poor practices.

Do:

- ✓ Devise and implement a documented cleaning regime to ensure consistency and for monitoring purposes
- ✓ Keep the school ventilated
- ✓ Use external doors for access and egress where possible – ensure they are fixed open so as not to slam shut
- ✓ Maintain safe and unobstructed movement around school

Don't:

- ✗ Allow walkways to become cluttered or obstructed
- ✗ Wedge internal fire doors open if possible. Use hold-open devices if fitted.

Staff Wellbeing

Preparing for the Task:

- Complete an Individual Health Assessment for High Risk Employees with staff who are clinically vulnerable, clinically extremely vulnerable, BAME staff or those who are living with a clinically extremely vulnerable individual. Discuss their individual concerns, make a record of support measures to be implemented, and maintain regular communication with them.
- Consider training identified staff in COVID-19 Psychological First Aid. A free course is available at the following link:
<https://www.futurelearn.com/courses/psychological-first-aid-covid-19/1>
- Plan and agree staff expectations, workload and flexible working arrangements (identified groups) to support and reassure staff
- Familiarise yourself with support measures, such as the Employee Assistance Programme, available through BHSF or The Education Support Partnership, so you can share this with staff.
- Timetable regular breaks for staff and PPA time for staff. Staff providing breaks and PPA are able to work across bubbles providing 2 metres distance is maintained between them and the children so use all available staffing resources.
- Ensure staff welfare arrangements are in place.
- Refer to the DfE School Workload Reduction Toolkit to support managing work demands on staff.

Completing and Finishing Task

- Monitor one another's wellbeing and seek advice and support where necessary
- Keep in touch with one another, including those who are working from home
- Regular monitor 'High Risk Employees' to ensure that control measures agreed upon remain suitable and sufficient.

Potential Hazards and Injuries:

- Compromised mental health and wellbeing.
- Social isolation.
- Fatigue.
- Adverse impact on work life balance.

Do:

- ✓ Complete an Individual Assessment for High Risk Employees
- ✓ Maintain communication, through for example MS Teams, WhatsApp Groups
- ✓ Access online wellbeing support if necessary through the Employee Assistance Programme (BHSF) or The Education Support Partnership
- ✓ Take regular breaks
- ✓ Seek advice from colleagues within the Local Authority at the earliest opportunity

Don't:

- ✗ Suffer in silence
- ✗ Be afraid to ask for help and support.

Personal Care Activities where a child presents NO symptoms (such as toileting, supporting with managing medical conditions etc)

New PPE **MUST** be used for each episode of individual care delivery as per standard infection control procedures.

Personal Protective Equipment:

Disposable Gloves

Disposable Apron*

**If there is likely contact with blood and/or bodily fluids as part of the activity.*

Preparing for the Task:

- ✓ Wash hands and forearms thoroughly following hand hygiene regime.
- ✓ Put on the required PPE in the immediate area you are working in.

Completing and Finishing Task:

- ✓ Deliver care in adherence with your infection control guidance and training and in accordance with the care plan.
- ✓ Remove and double bag PPE in the immediate area before going on to the next task.
- ✓ Any contaminated clothing should be double bagged and securely stored until it is sent home with the child for washing.
- ✓ Hands and forearms **MUST** be washed immediately after removing PPE
- ✓ Door handles must be cleaned before entering and leaving the affected area.
- ✓ A school shower is available if necessary (new towel and shower equipment available)
- ✓ Thoroughly wash all your clothing as soon as you arrive home. Avoid shaking clothing before placing in the washing machine.
- ✓ Vehicles should be decontaminated frequently. Sanitiser should be used to clean down seats, gear sticks, steering wheel etc.

Potential Hazards and Injuries:

- Contact with bodily fluids and droplets.
- Unpredictable behaviours leading to scratches and bites etc.
- Spread of infection due to poor practices.

Do:

- ✓ Wear appropriate Clothing.
- ✓ Wear appropriate PPE.
- ✓ Maintain good hygiene and infection control standards.
- ✓ Regularly wash your hands and forearms

Don't:

- ✗ Deliver care without wearing PPE.
- ✗ Use the same PPE for more than one task.
- ✗ Touch your eyes, nose and mouth.
- ✗ Consume food and drink until you have removed all PPE and washed your hands.

Personal Care Activities where child IS presenting symptoms (such as toileting, supporting with managing medical conditions etc)

Should a child start to display symptoms whilst at school then they must be isolated in the sensory room following similar precautions for other infectious conditions such as influenza. Appropriate adult supervision will be provided.

If they need to go to the toilet whilst waiting to be collected, they should use the staff disabled toilet. This toilet must be cleaned and disinfected using standard cleaning products before being used by anyone else.

New PPE **MUST** be used for each episode of individual care delivery as per below for aerosol generating procedures where the child is in a highly infective state (persistent coughing).

Personal Protective Equipment:

Disposable Gloves

Disposable Apron

Disposable Fluid Repellent Face Mask (Surgical Face Mask)

Eye protection where contact is within 2 metres (either eye protection or a face shield)

Preparing for the Task:

- ✓ Wash hands and forearms thoroughly following hand hygiene regime.
- ✓ Put on all the required PPE **BEFORE** entering the isolated area.

Completing and Finishing Task:

- ✓ Deliver care in adherence with your infection control guidance and training and in accordance with the care plan.
- ✓ Any contaminated clothing should be double bagged and securely stored until it is sent home with the child for washing.
- ✓ On completion of the task, step outside the room and immediately remove the PPE. This and any soiled items **MUST** be double bagged in disposable rubbish bags and securely tied and left in a designated room for 72 hours before being disposed of in the usual waste stream.
- ✓ Hands and forearms **MUST** be washed immediately after removing PPE
- ✓ Door handles must be cleaned before entering and leaving the affected area.
- ✓ Thoroughly wash all your clothing as soon as you arrive home. Avoid shaking clothing before placing in the washing machine.
- ✓ Vehicles should be decontaminated frequently. Sanitiser should be used to clean down seats, gear sticks, steering wheel etc.

General Cleaning Activities

Personal Protective Equipment:

Personal Protective Equipment is NOT required unless stated as a requirement for safe usage on the manufacturer's instructions and/or product COSHH Assessment

Appropriate footwear (enclosed, flat and non-slip tread) should be worn.

Completing and Finishing Task:

- ✓ Clean and disinfect regularly touched objects and surfaces (particular door handles, toys and equipment, and shared/communal areas such as toilets) using appropriate disinfectant cleaning products to reduce the risk of transmission.
- ✓ Use disposable cloths or paper roll if possible.
- ✓ Avoid creating splashes or sprays when cleaning
- ✓ Hands and forearms **MUST** be washed immediately after completing the activity
- ✓ Ensure all staff are aware of the location of cleaning substances and equipment. The Safety Data Sheet for the cleaning substance must be accessible in the event that spillage or first aid incident should occur. Directions on the safety data sheet must be followed in such a circumstance.
- ✓ Thoroughly wash all your clothing as soon as you arrive home. Avoid shaking clothing before placing in the washing machine.
- ✓ A contingency plan for cleaning to be put in place to cover a cleaner who is not available for work, without breaking the cleaning protocols.

Potential Hazards and Injuries:

- Contact with bodily fluids and droplets.
- Spread of infection due to poor practices.

Do:

- ✓ Wear appropriate footwear.
- ✓ Wear appropriate clothing.
- ✓ Maintain good hygiene and infection control standards.
- ✓ Regularly wash your hands and forearms

Don't:

- ✗ Touch your eyes, nose and mouth.
- ✗ Consume food and drink until you have removed all washed your hands.

Cleaning Activities (FOLLOWING SUSPECTED OR CONFIRMED CASE OF COVID-19)

IN THE EVENT THAT PERSON IS CONFIRMED AS HAVING COVID-19, SPECIFIC GOVERNMENT GUIDANCE IN RELATION TO DECONTAMINATION CLEANING MUST BE FOLLOWED:

<https://www.gov.uk/government/publications/covid-19-decontamination-in-non-healthcare-settings/covid-19-decontamination-in-non-healthcare-settings>

Personal Protective Equipment:

Appropriate footwear (flat, enclosed and good non-slip tread)

Disposable Gloves

Disposable Apron (or apron which can be cleaned and disinfected after use)

Completing and Finishing Task:

- ✓ Clean and disinfect regularly touched objects and surfaces (particular door handles, bannisters, and shared/communal areas) using appropriate disinfectant cleaning products to reduce the risk of transmission (refer to most current guidance at the link above)
- ✓ Use disposable cloths or paper roll if possible.
- ✓ Avoid creating splashes or sprays when cleaning
- ✓ Steam clean any surface which cannot be cleaned using detergents or laundered
- ✓ Suitable footwear, disposable gloves and a disposable apron must be worn when cleaning.
- ✓ Once the cleaning task has been completed, personal protective equipment and cleaning items must be double bagged, secured for 72 hours, and then disposed of.
- ✓ Hands and forearms **MUST** be washed immediately after removing PPE
- ✓ Ensure all staff are aware of the location of cleaning substances and equipment. The Safety Data Sheet for the cleaning substance must be accessible in the event that spillage or first aid incident should occur. Directions on the safety data sheet must be followed in such a circumstance.
- ✓ Thoroughly wash all your clothing as soon as you arrive home. Avoid shaking clothing before placing in the washing machine.

Potential Hazards and Injuries:

- Contact with bodily fluids and droplets.
- Unpredictable behaviours leading to scratches and bites etc.
- Spread of infection due to poor practices.

Do:

- ✓ Wear appropriate footwear.
- ✓ Wear appropriate clothing.
- ✓ Wear appropriate PPE.
- ✓ Maintain good hygiene and infection control standards.
- ✓ Regularly wash your hands and forearms

Don't:

- ✗ Deliver care without wearing PPE.
- ✗ Use the same PPE for more than one task.
- ✗ Touch your eyes, nose and mouth.
- ✗ Consume food and drink until you have removed all PPE and washed your hands.

COVID-19 Safe ways of working

A visual guide to safe PPE

General contact with confirmed or possible COVID-19 cases

- Eye protection to be worn on risk assessment
- Fluid resistant surgical mask
- Disposable apron
- Gloves

Aerosol Generating Procedures or High Risk Areas

- Eye protection eye shield, goggles or visor
- Filtering facepiece respirator
- Long sleeved fluid repellent gown
- Gloves

General PPE Instructions:

- Clean your hands before and after patient contact and after removing some or all of your PPE
- Clean all the equipment that you are using according to local policies
- Use the appropriate PPE for the situation you are working in (General / AGPs or High Risk Areas)
- Take off your PPE safely
- Take breaks and hydrate yourself regularly

For more information on infection prevention and control of COVID-19 please visit:

www.gov.uk/government/publications/wuhan-novel-coronavirus-infection-prevention-and-control

Guide to donning and doffing standard Personal Protective Equipment (PPE)

for health and social care settings

Donning or putting on PPE

Before putting on the PPE, perform hand hygiene. Use alcohol handrub or gel or soap and water. Make sure you are hydrated and are not wearing any jewellery, bracelets, watches or stoned rings.

- 1 Put on your plastic apron, making sure it is tied securely at the back.

- 2 Put on your surgical face mask, if tied, make sure securely tied at crown and nape of neck. Once it covers the nose, make sure it is extended to cover your mouth and chin.

- 3 Put on your eye protection if there is a risk of splashing.

- 4 Put on non-sterile nitrile gloves.

- 5 You are now ready to enter the patient area.

Doffing or taking off PPE

Surgical masks are single session use, gloves and apron should be changed between patients.

- 1 Remove gloves, grasp the outside of the cuff of the glove and peel off, holding the glove in the gloved hand, insert the finger underneath and peel off second glove.

- 2 Perform hand hygiene using alcohol hand gel or rub, or soap and water.

- 3 Snap or unfasten apron ties the neck and allow to fall forward.

Snap waste ties and fold apron in on itself, not handling the outside as it is contaminated, and put into clinical waste.

- 4 Once outside the patient room. Remove eye protection.

- 5 Perform hand hygiene using alcohol hand gel or rub, or soap and water.

- 6 Remove surgical mask.

- 7 Now wash your hands with soap and water.

Please refer to the PHE standard PPE video in the COVID-19 guidance collection:

www.gov.uk/government/publications/covid-19-personal-protective-equipment-use-for-non-aerosol-generating-procedures

If you require the PPE for aerosol generating procedures (AGPs) please visit:

www.gov.uk/government/publications/covid-19-personal-protective-equipment-use-for-aerosol-generating-procedures
