

REQUEST TO BRING A BICYCLE TO SCHOOL

Child's Name:	Class:
---------------------	--------------

Children should have successfully completed the East Riding Bikeability course in school to be given permission to ride bicycles to school independently.

Parents/Carers are advised that the school needs to approve an application to ride a bicycle to school independently, before these pupils will be allowed to bring bicycles on site. In addition, parents will be required to sign the request form. The school is able to provide bicycle storage for children who are cycling to school independently. Priority will be given to Year 6 (in preparation for transition) and then Year 5, once Bikeability has taken place and children have successfully completed the course.

Once the form has been received and the request approved Parents/Carers will receive a copy of this document entitling the children to bring their bicycle onto the school site.

Bicycles may NOT be ridden on the school premises. Pupils must get off their bicycle at the school gate. The school requires pupils to wear a bicycle helmet, and these can be put in their locker in the school.

The only place where bicycles may be left is the bicycle stand near the Quiet Area. Bicycles must be padlocked on arrival at the school and should remain secured until the end of the school day. Bicycles must not be loaned to other pupils.

Parents/Carers are responsible for the roadworthiness of the bicycles. The school takes no responsibility whatsoever. Parents/Carers are advised to take out insurance cover for bicycles as the school carries no insurance cover for loss or damage. The school will not accept liability for damage to or loss of bicycles whilst on the school premises and will not be liable for personal injury caused by riding bicycles to and from school.

I acknowledge that this may be revoked if deemed necessary by the school.
